## STATE PARKS ANNOUNCES \$46 MILLION IN PARK PROJECTS

SACRAMENTO – State Parks Director Ruth Coleman today announced that 61 competitive park projects have been selected to receive more than \$46 million from two major grant programs administered by the Department, the Youth Soccer and Recreation Development Program and the State Urban Parks and Healthy Communities Program.

“This money will benefit children and entire families where they live,” said Coleman. “These are exceptionally good grant programs because they provide funds for quality parks and recreation projects for communities and neighborhoods all across this state.”

Under the Youth Soccer and Recreation Development Program, the 2002 Resources Bond Act grant program provides \$23,337,000 to local agencies and community-based organizations to foster the development of new youth soccer, baseball, softball, and basketball recreation opportunities in the state. The Department received 251 applications totaling approximately \$179 million for this program.

For the State Urban Parks and Healthy Communities Program, the 2002 Resources Bond Act will provide \$23,087,000 to local agencies and community based organizations in 27 California counties. Approximately 60% of the funds go to the southern portion of the state and 40% to the northern portion of the state. The funds may be used for acquiring and developing recreation areas and facilities for active recreational purposes. The Department received 212 applications totaling approximately \$153 million for this program.

The 2002 Resources Bond Act, known as Proposition 40, was passed by 56.8 percent of the voters in March 2002. The \$2.6 billion measure provides funds for a wide variety of parks, open space, recreation and land, air and water conservation projects across the state.
